Screenshots of Program on IPR Awareness

This screenshot shows a Zoom meeting interface with a slide titled "Viewing Zoom Meeting Content". The slide text is as follows:

- IPR is collective term for Intellectual Property Rights
- Intellectual property, very broadly, means the legal rights which result from intellectual activity in the
- Industrial,
- Scientific,
- Literary and
- Artistic fields.
- Intellectual property rights are like any other property rights. They allow creators, or owners, of patents, trademarks or copyrighted works to benefit from their own work or investment in a creation.

The NIPAM logo is visible in the bottom right corner of the slide.

This screenshot shows a Zoom meeting interface with a slide titled "Background and Property". The slide contains a flowchart illustrating the classification of property:

NEED FOR IPR

- 1) Technologies are changing rapidly;
- 2) Investments in Research & Development, production, marketing have become very high;
- 3) **In the Era of digitalization**, there are high chances of creative ideas being stolen by any third party, without any prior permission;
- 4) Industry has become very competitive, etc.

Copyright Protects Rights

- Copyright protects rights related to creation of human mind in the fields of literature, music, art and audio-visual works. **The owner of copyright has rights not only in the original work, but also in creative work that is derived from the original work.**
- e.g. its translation or adaptation or the enactment or production of a film based on the original work.
- Such rights relating to a copyright are called related rights.
- There are neighbouring rights on copyright, which protect performances of performing artists, phonograms and broadcasts.
- Related rights and neighbouring rights are terms used interchangeably.

Invention & Discovery

Invention means
 a **new product or process**
 involving an **inventive step** (non-obviousness)
 and
 capable of **industrial application**.

eg:
 1. Invention of the telephone by Graham Bell
 2. Invention of the light-bulb by Thomas Alva Edison.
 3. Invention of the computer by Charles Babbage
