Activity Report
Save Trees

Date: 28/1/2015

Activity: Save Trees

Date: -26/1/2015

Venue: Lohgaon

Organized By: Mechanical Engineering Department

No of Participant: - 40

Aim of Activity: To create awareness about importance of Saving Trees.

Details:

Save Trees activity was carried out by mechanical Engineering department for creating awareness in the peoples about importance of saving Trees. Trees produce oxygen that is life line of all living beings.

Importance of Trees:

- Protecting our atmosphere. They improve atmospheric air purity. Trees help to lock CO₂ out of the atmosphere, combating climate change.
- Food supply. Much of our food comes from trees, including nuts, bark and fruits (for example mango, apple, etc.). Spices such as cinnamon, black pepper, cloves, etc. come from trees and plants.
- Soil quality. Tree roots balance the mineral composition of the soil and improve its productivity.
- Preventing flooding. Tree roots are a natural flood defense.
- Defense against winds. Trees are a natural barrier against high winds and dust storms.
- Habitats. Rainforests and woodlands are important habitats for many animals, birds and insects.
- Medicine. Many trees are medicinal; aloe vera soothes the skin, for instance.
- Biodiversity: Trees also enhance biodiversity in the ecosystem
- Shade: Trees provide shade from the sun.
- Clothing: Tree fibers are used in some clothes.
- Cosmetics: Aloe vera juice, coconut oil, etc. are used widely in the cosmetic industry
- Supporting other plants: Some other plants are designed to root in tree trunks

How to Save Trees:

- Plant a trees
- Use paper wisely
- Borrow, share and donate books
- Go digital with your bills
- Switch to digital books
- Read your magazines online
- Switch cards for e-cards
- Reuse gift bags
- Use reusable containers
- Avoid the paper towels
- Switch from paper napkins to cloth napkins
- Buy used wooden furniture
- Protect existing forests
