## DEPARTMENT OF MECHANICAL ENGINEERING

MAY 2018

A.Y.2017-18

### *Message from Head of the Department*

It is with immense pleasure and pride that I am writing this message to the students. Foremost, my wishes to the team that worked on this newsletter. The department has yet again added multiple feathers to its cap during this mid- year. Our faculty had always taken productive steps towards the pinnacle of success.

Newsletter is one of the ways in which we can disseminate information on the life of the Department. The past semester was full of various activities by the students and faculty in academic, co-curricular, extra-curricular as well as research & developments. As you read through the pages you will realize, that the Department had a particularly successful semester.

I hope you enjoy reading this issue of newsletter as in the past. Please let us know your story and suggestion. I would like to thank all my colleagues for their tireless efforts to help the department progress at a very steady pace.

Prof. Rajat S. Patil

### Message from the Editor

This Newsletter also gives an opportunity to our student and staff to spotlight their insights, ideas and innovations and to show how this can be applied in almost any organization.

While the unemployment rate of the country remains high, we welcomed the biggest undergraduate and graduate classes in the history of the Department this fall.

Dr. Anjali Joshi
